## Summary

I'm a dedicated, resilient, perseverant, and committed student interested in Web Development and enhanced coding skills, primarily in Java. The core focus is on programming with a long-term interest in developing a medical app to help people. Very keen to work on programming related assignments.

Please feel free to reach out for any questions, comments, concerns, or know me more.

## Experience

### Club Member

#### Monta Vista Robotics Team

Aug 2018 - Jun 2019 (11 months)

- As a rookie in the Mechanical Branch, learning the basics of tools and processes that are Implemented to make hardware models.
- Involved during the build season by performing basic tasks(bringing tools/materials, drilling holes, using machines to cut materials, etc.)
- Attended my first FRC event in March 2019 to support my team.
- I worked with my club-peers and my mentor to build a robotic arm designed to pick up a cube and demonstrated it after 6 weeks.

## Education

### Monta Vista High School

High School Diploma, Regular/General High School/Secondary Diploma Program  
2018 - 2022

### Sam.H.Lawson Middle School

Middle School, Education

2015 - 2018

1. Participated in school band, Played Saxophone in various school concerts
2. Played in Basketball though as a hobby but helped me in various aspects
3. Played various Bay Area Chess tournaments and won good number of prizes. This helped me in learning tactics and strategies and dealing with complex situations in real life.
4. developed lego logics and built complex lego patterns with ease
5. Participated in Math Olympiad while during my 8th Grade
6. Travelled to Yosemite and other places as a part of science assignments

## **Skills**
